## Introduction

1984 by George Orwell is a novel about a totalitarian government attempting to destroy individuality. This story is Winston Smith's quest to rebel against those that dictate every part of his life. Winston rebels by finding someone that shared his beliefs, Julia, and falling in love with her. His dreams are shattered when they are discovered and are brainwashed into living only to serve the Party. In the end, Winston loved Big Brother.

## Plot Summary

The novel 1984 takes place on Airstrip One, formerly known as England, in the city of London. Airstrip One is a part of a greater political body called Oceania, which consists of North America, South Africa, Australia, and England. The nations of Oceania, Eurasia, and Eastasia are constantly fighting an endless war where no side ever gains an advantage. 1984 centers around the life of Winston Smith, an average member of the Outer Party living in London.

1984 begins with Winston Smith walking into his home at the Victory Mansions. He is forced to walk up the stairs rather than take the elevator because he knows the electricity will be shut off during the daytime due to the economic drive for Hate Week. Posters of Big Brother are posted on all the walls as he trudges up the stairs in pain because of the varicose ulcer in his ankle. He finally reaches his room and moves to a section of the room where the telescreen can't see him. The telescreen is a device which broadcasts and receives images and sound and the Thought Police constantly monitor everyone through these devices. He took out a book that he bought in the proletarian section of London.

The book was a diary, and he wrote about the movies he had seen the night before and began thinking about a dark-haired girl he works with and a man named O'Brien. He wrote about the hate and lust he felt for the girl and also wrote about O'Brien, a member of the Inner Party. He also thought about the Two Minutes Hate, a time when the Party stirs up the hate all loyal Party members feel for the enemy of Oceania. This enemy could be either Eurasia or Eastasia at any given time, because the Party is only at war with one at a time and the war is always changing. During the Two Minutes Hate, he realized he hated Big Brother and saw the same look in O'Brien's eyes. As he was thinking this, he noticed that he was writing "DOWN WITH BIG BROTHER" all the way down the page in the diary. By doing this he committed the most severe crime, Thoughtcrime. Winston thought to himself, "Thoughtcrime was not a thing that could be concealed forever. You might dodge successfully for a while, even for years, but sooner or later they were bound to get you... You were abolished, annihilated: vaporized was the usual word" (Orwell 19-20).

Winston closed the diary and remembered a dream he had where O'Brien told him that they would meet in the place where there is no darkness. He fell asleep and dreamt of the Golden Country, where he saw the dark-haired girl take off her clothes and in doing so, seemed to sweep aside Big Brother and the Party. He also dreamt of his parents and how he felt responsible for their deaths. He woke up and began doing his daily exercises called Physical Jerks. He thought about his childhood but can't remember much because no records were taken and the ones taken are inaccurate. He also thinks about the war with Eurasia, the war that supposedly had always been against Eurasia. He vaguely remembers a time when Oceania was at war with Eastasia. He also remembers that Big Brother was not around before the 1960s, but records say he has been in power since the 30s.

Winston went to work at the Ministry of Truth, the department in charge of creating propaganda, destroying obsolete records, and changing "inaccurate" data. He rewrites the story of a deceased soldier and then has lunch with a man named Syme. Syme is working on the Newspeak dictionary which will eventually change the language so that Thoughtcrime is impossible. Winston believes that Syme will be vaporized due to his intelligence, and later in the book Syme is vaporized.

That night he goes home and writes an entry in his diary about his last sexual experience. The Party condemns sex for pleasure and will only allow marriages if there is no possibility of love. Winston and his wife.
